# CEDERROTH FIRST AID & BURN STATION

The First Aid Station for workplaces with risk of burn injuries and/or food is processed, such as catering kitchens, the food industry and workshops.

## CEDERROTH BURN GEL FOR BURNS

Cederroth Burn Gel 100 ml and Dressing provide rapid cooling and effective pain relief for burns. Cederroth Burn Gel cools as effectively as lukewarm water, speeding the healing process.

## SOFT FOAM DISPENSER

Cederroth Soft Foam Bandage Blue is an elastic self-adhesive bandage, giving maximum freedom of movement. The smart dispenser makes it easy for you to cut just the right length. The bandage can be used for all kinds of minor wounds and will stay in place in water.

## PLASTER FOR BURNS

Cederroth Burn Cover protects and soothes minor burn injuries and promotes faster healing. The cool hydrogel protects the nerve endings in the skin and does not adhere to the wound.

## BLUE PLASTERS WHEN HANDLING FOOD

Salvequick Blue Detectable Plasters are perfect if you are handling food. Blue plasters are easier to see and they can be detected by most metal detectors used in the food industry.

## RESTAURANT & FOOD

Cederroth offers a complete range of First Aid products for the Restaurant and Food Industry.

Very common restaurant hazards include cuts, slippery floors, sharp equipment, heavy lifting and burns. Crowded and stressful environments are often an underlying factor behind accidents. Magnetic, blue plasters should be used and are often mandatory in food preparation and processing locations, that are easy to detect if lost.

### Common risks:

#### SHARP IMPLEMENTS AND MACHINERY

Food preparation usually contains plenty of cutting, slicing, peeling and dicing, where one small mistake can lead to serious injury. Our Cederroth First Aid & Burn Station is designed to treat most common kitchen injuries. As restaurants tend to use a lot of plasters, we recommend our Wound Care Station with blue plasters and Soft Foam bandage strip.

#### HOT SURFACES, OIL, HOT WATER AND STEAM

Hot surfaces, oil, hot water and steam can cause burns. Cleaning around deep fat fryers is a risk area that often leads to burns. Our practical Burn Gel dressings cool the burn area and provide pain relief in such stressful environments and also on the way to hospital if necessary.

#### CHEMICALS AS CLEANING AGENTS

Cleaning agents including dishwasher and oven cleaners are highly corrosive, as are disinfectants used in the food industry. They can all cause severe eye injuries. A buffered Eye Wash that has a neutralizing effect on alkalis and acids is far more effective than flushing eyes with tap water. Having a high quality Eye Wash to hand for immediate emergency flushing increases the chance of saving vision.

# CEDERROTH EYE WASH STATION

Buffered liquid increases the chance of saving your eyes!

Cederroth Eye Wash works to neutralise the eye's pH value, i.e. it has a neutralising effect on alkali or acid splashes, giving a quicker result than a normal sodium chloride solution.\* Shelf life of 4.5 years.

**THE INTEGRATED EYE CUP GUIDES THE LIQUID TOWARDS THE EYE WITHOUT ANY UNNECESSARY WASTE.**

The eye cup helps to keep the eye open while rinsing. A colleague can check that the eye is open by looking through the transparent cup.

**CEDERROTH EYE WASH STATION  
REF 721500**  
Dimensions: W 29 x H 56 x D 12 cm

- 2 (x 500 ml) Bottles of Cederroth Eye Wash (REF 725200)

## NOW GREEN IS EVEN GREENER

The green-coloured plastic in Cederroth Stations and Dispensers are from January 2022 made of >85% recycled plastics. We take care of parts from old refrigerators and give them new life in First Aid products, which gives 90% lower CO<sub>2</sub> emissions compared with producing new plastics. At the same time, our outer cartons are made of 90% recycled fibre.
