

FIRST AID

# Construction & Manufacturing

CEDERROTH

# First Aid Station

The base of First Aid equipment.

It contains products that can treat many types of injuries and can also be adapted to meet different needs.

- Transparent
- Easy to use
- Easy to refill

## Soft Foam Dispenser

Cederroth Soft Foam Bandage Beige is an elastic self-adhesive bandage, giving maximum freedom of movement.

Scan the QR code to see an instruction film about Cederroth First Aid Station.

- 1 (x 20) Salvequick Wound Cleansers (REF 323700)
- 1 Cederroth Protection Kit (REF 2596)
- 1 First Aid Instructions
- 1 Refill key

## Manufacturing

Manufacturing industries are high risk areas for severe accidents. Common risks:

**Tools and machinery:** Large machine minding, using tools and moving equipment all entail significant risk.

**Chemical substances:** Spills, equipment failures and operator errors often cause accidents. Handling processes and maintenance chemicals, machine washers, industrial inkjet printers and paint are all potential hazards, as is forklift charging.

**Burn injuries:** Hot surfaces, hot water, steam, fire & hot metals can cause burns. It is important to cool burns rapidly, to prevent further spreading or more severe injury.

## Construction

The risk of serious injury is 3 X greater on a construction site than other industries. Common risks:

**Operating machinery and using tools:** The most common accidents are falls and accidents involving tools and machinery – larger machinery, hand tools and knives.

**Chemicals:** Cement and concrete are alkaline and corrosive. Ready access to Eye Wash is crucial in the event of an accident.

**Welding work:** Welding work for example, can cause burns.

Scan the QR code to read more about the different industries:

## CEDERROTH Signs

Signs should be put up to show where the First Aid equipment is located.

- Double-sided • Photoluminescent • 20x20 cm

First Aid Cross

Accessories: Self-adhesive plastic sign holder for projecting wall signs.

# CEDERROTH Eye Wash Station

Buffered liquid increases the chance of saving your eyes!

Cederroth Eye Wash works to neutralise the eye's pH value, i.e. it has a neutralising effect on alkali or acid splashes, giving a quicker result than a normal sodium chloride solution.\*

- If you have an accident with a substance that contains calcium (for example, cement, concrete or lime), you can safely rinse with Cederroth Eye Wash as it is 100% phosphate-free
- The integrated eye cup guides the liquid towards the eye without any unnecessary waste. The eye cup helps to keep the eye open while rinsing
- Bottles will open automatically when twisted out of the brackets to enable immediate rinsing
- **Shelf life** of 4.5 years

Scan the QR code to see an instruction film about Cederroth Eye Wash.

Neutralising effect<sup>#</sup>

**Cederroth Eye Wash Station  
REF 721500**

**Dimensions: W 29 x H 56 x D 12 cm**

2 Cederroth Eye Wash á 500 ml (REF 725200)  
1 Salvequick Plaster Dispenser incl.  
1 (x 40) Textile Plasters (REF 6444)  
1 (x 45) Plastic Plasters (REF 6036)  
1 Eye Wash Instructions  
1 Refill key

<sup>#</sup>The effect is generally stronger on alkalis than acids.

# CEDERROTH Eye Wash

**Cederroth Eye Wash Cabinet  
REF 51011040**

A compact dust and water protected Eye Wash Cabinet.

**Includes:** 2 (x 500 ml) Cederroth Eye Wash 500 ml (REF 725200).  
Fluorescent instruction sign.  
Dimensions: W 19 x H 30 x D 9 cm.

**Cederroth Eye Wash  
REF 7 25200**

2 (x 500 ml) sterile isotonic borate buffered sodium chloride solution without preservatives. For single use.  
Shelf life 4.5 years.

**Cederroth Heating Cabinet  
REF 790400**

This heating cabinet has been designed for storing two bottles of Cederroth Eye Wash in cold environments. The cabinet maintains the temperature of the eye wash solution at +20°C, even if the temperature outside is as low as -20°C. The cabinet is made of insulated, durable and chemically-resistant EPP and has a thermostat heating element made of aluminium. It works automatically with 12V and 24V without the need for any other equipment (230V with a transformer). Plug for cigarette lighter sockets in cars and lorries. Voltage guard. Tested for electrical safety and CE-labelled. Eye wash must be ordered separately (REF 725200).  
Dimensions: W 28 x H 32 x D 13 cm.

**Cederroth Eye Wash Pocket  
Model, REF 7221**

235 ml sterile isotonic borate buffered sodium chloride solution without preservatives for single use. Shelf life 4.5 years.

**Cederroth Holster  
REF 720300**

Green nylon holster with a belt loop for Cederroth Eye Wash Pocket Model.

\* From the summer of 2025, the plastic in Cederroth First Aid Stations and Dispensers will be made of >92% recycled plastic.

\* From the summer of 2025, the plastic in Cederroth Eye Wash Stations will be made of >87% recycled plastic and Eye Wash Cabinets of >78% recycled plastic.

**Plaster, REF 510003320**

Each refill contains 30 plasters  
(18 pcs 72x19 mm and 12 pcs  
72x25 mm). 6 refills/box.

## Recycled plastic gets new life in First Aid products

\*Since 2022, the green coloured plastic in Cederroth Stations and Dispensers has been made from more than 85 % recycled plastic. We are now taking the next step and are beginning to replace the plastic in the transparent doors with 100 % recycled plastic. From the summer of 2025, the plastic in Cederroth First Aid Stations and Dispensers will therefore be made of >92 % recycled plastic. Using recycled plastic reduces the climate impact compared to using newly produced plastic. Read more about our sustainability journey at [cederroth.com](https://cederroth.com).
