Eye Wash Bottles

Eye Wash for physical contamination, with 0.9% sodium chloride solution

Sterile eyewash bottle with 0.9% sodium chloride solution, for rinsing out foreign bodies, e.g. dust, dirt, liquids. Ergonomic rinsing head and dust cap. Corresponds DIN EN 15 154-4 standard. For mobile use or for refilling the station and case. The TWIN rinsing head allows both eyes to be rinsed simultaneously.

Content: 250 ml / 500 ml Rinsing time: 2.5 min / 5 min Shelf life: > 3.5 years

Brand: Actiomedic

SKU Version

500.000.02500 250 ml First Aid eye wash with dust protection cap

500.000.05000 500 ml First Aid eye wash with dust protection cap

500.000.05002 500 ml TWIN First Aid eye wash

Eye Wash for chemical (acid/alkali) contamination, with 4.7% phosphate-buffer solution

Sterile eye wash bottle with 4.9% phosphate-buffered rinsing solution, to neutralize and rinse chemicals (acids or alkalis) from the eye, high buffer capacity, particularly gentle due to the absence of exogenous components and preservatives. Ergonomic rinsing head and dust cap. Corresponds DIN EN 15 154-4 standard. For mobile use or for refilling the station and case. The TWIN rinsing head allows both eyes to be rinsed simultaneously.

Content: 250 ml / 500 ml Rinsing time: 2.5 min / 5 min Shelf life: > 3.5 years

500.100.74500 500 ml eye wash buffer with dust protection cap

500.200.74203 500 ml TWIN eye wash buffer

Special 2-in-1 borate buffered eye wash solution

A personal eyewash bottle containing sterile, borate buffered eye wash solution. The Cederroth Eye Wash is intended for washing away foreign particles (like dust, dirt, metal and wood splinters, etc.) and dangerous liquids, like alkali or acids, from an eye in an emergency first aid situation at workplaces. The borate buffer solution neutralizes splashes of alkalis and acids, restoring the eye's natural neutral pH. The effect is in general stronger for alkalis than for acids.

100% phosphate-free, so if an accident occurs with a calcium-containing substances (e.g. cement, concrete or lime), use the borate buffered Cederroth eye wash solution. Easy-to-use bottle with an ergonomic rinsing head, dust cap and clear instructions for use. The bottle is easily opened and ready to use by twisting off the dustcover. The integrated eye cup helps keeping the eye open during rinsing and ensures a generous flow without unnecessary waste. For mobile use or for refilling the station and case.

Content: 235 ml / 500 ml Rinsing time: 2 min / 5 min Shelf life: > 4.5 years

Safety Wall

Safety Wall – the complex solution

An aesthetic, wall-mounted complex first aid station that combines the best first aid solutions with a modern and practical design. The ideal choice for any workplace, whether office, factory or warehouse, this system provides all the necessary equipment for quick and effective treatment in case of an accident. The wall-mounted design is practical and space-saving, and the system is easy to understand and quickly accessible in an emergency.

- Complete first aid solution in one place
- Space-saving
- Aesthetic, fits perfectly into the environment
- Wall-mountable design – always in sight, always at hand
- All necessary equipment is available and organized
- Quick access when needed
- Increases the level of occupational safety and the security of employees
- Standards-compliant contents:
The first aid kit can be chosen with contents that comply with MSZ (Hungarian) or DIN (German) standards
- Durable materials:
The board is made of 3 mm Dibond, which is resistant to mechanical impact and environmental factors

Recommended areas of use:

- Factories
- Warehouses
- Offices and small businesses
- Educational institutions (schools)
- Community spaces and sports facilities
- Catering
etc.

Hand hygiene

Practical solutions

Plum is a brand of hygiene products for the professional market. With more than 50 years' experience in the field of hygiene we have developed a product range that makes it easy to maintain proper hygiene within different kinds of workplaces. This applies to hand hygiene as well as the cleaning and disinfecting of surfaces. All our products and solutions have been developed based on a thorough knowledge of the industries we serve and meet the requirements and needs of the industrial, food and healthcare sectors.

Environmentally friendly products

We place great emphasis on ensuring that our products and packaging are a good choice for both the customer and the environment. We hold ISO 14001 environmental certification and we work continuously to reduce the environmental impact of our raw materials, packaging, production and transport.

Dispensers for the environment

We provide hygienic dispensers and packaging that provide the correct chemical dosage, can be emptied completely, and generate a minimum amount of waste.

Our solutions are easy to use during busy working days and you can always find an option that is appropriate for your particular workplace.

The Nordic Swan Ecolabel

Products bearing the Nordic Ecolabel represent a large and increasing proportion of the Plum range. The Nordic Ecolabel makes it easy to identify the most environmentally friendly products.

When choosing products bearing the Nordic Ecolabel, you are protecting nature and the environment, taking care of yourself and your loved ones, using less of the Earth's resources and showing consideration for the future of our planet. Better for the environment. Better for you.

Hand hygiene in a few simple steps

Skin protection before work

Their use helps prepare the skin for protection against various exposures during work. They prevent dirt from penetrating the skin, so less and milder cleaning agents are needed for proper cleaning.

Plutect Dual

Hand hygiene in a few simple steps

Hand cleaners for every task

Plum industrial hand cleaners effectively yet gently remove all kinds of grime. The products contain natural corn cob granules as an abrasive. All hand cleansers also contain glycerine, which has a moisturizing effect and prevents the skin from drying out.

Hand hygiene in a few simple steps

Hygienic hand disinfectors

Hands are the biggest source of infection and disease transmission. Use hand sanitiser whenever you are unable to wash your hands. The combined use of soap and hand sanitiser is an effective way to prevent the spread of bacteria and viruses.

Disinfector 85%

HYGIENIC HAND DISINFECTOR

- Hygienic hand disinfectant
- Gel or liquid formulation
